

Waverly Free Library Birding Quest

Hidden across the library are 15 pictures of birds, each with a QR code you can scan with your phone camera that will tell you all about what kind of bird it is and what sound it makes. Try and see if you can find every bird in the library!

Pick up a birder's checklist at the library to help keep track of which birds you've found. If you want an extra challenge, try using the advanced birder's checklist instead.

If you're having trouble finding a bird, don't hesitate to ask us at the front desk for a hint about its location. We also have bird books and guides available at the library if you need help identifying a bird, or if you just want to learn more about them.

When you're all done, turn in your completed checklist for a pair of binoculars, so you can start finding real birds all over the valley!
